ABSTRACT

The 2001 edition of the "Michigan Library Statistical Report" presents data for fiscal year 2000 provided by public libraries, library cooperatives, and those public libraries that serve as regional or subregional outlets to provide services for blind and physically handicapped patrons. Statewide summaries are presented, after statistical tables for regional and subregional libraries serving the blind and physically handicapped and library cooperatives. Public library data is then presented by class size (there are a total of six classes), which is determined by population. At the beginning of each class, totals are provided for FY 1998, FY 1999, and FY 2000-including percentages of change-for the following: library service population; total library visits; total circulation; total collections; reference transactions; operating income per capita; operating expenditures per capita; total library visits per capita; total circulation per capita; total collections per capita; and reference transactions per capita. Statistics are then reported for each library in that class, in alphabetical order on: outlets, hours, and staff; operating income; operating expenditures; capital income, capital expenditures, and square footage; library collections; library services; director salary and benefit information; other employee salary; millage; non-resident fees and MichiCard membership; technology-computers; and technology-Internet. An alphabetical listing of automation systems, with names and classes of the libraries that use them, is given. The Public Library Annual Report form is included. The publication also includes a Public Library Index that identifies basic information for each library, including the class size under which the library data is reported. (AEF)

Introduction

The 2001 edition of the **Michigan Library Statistical Report** presents FY 2000 data provided by public libraries, library cooperatives and those public libraries that serve as regional or subregional outlets to provide services for blind and physically handicapped patrons. Public library data is presented by class size, which is determined by population. It should be noted, however, that a library is not limited to comparing itself only to members in its class size.

Definitions for public library data elements are based on the Federal State Cooperative System (FSCS) for Public Library Data of the U.S. Department of Education, National Center for Education Statistics. By using this national system and its definitions of terms, Michigan's data is comparable with those of the other 49 states and the District of Columbia. The national data for Fiscal Year 1998 is available in a publication entitled **Public Libraries in the U.S.: FY 1998**, by the National Center for Education Statistics, US Department of Education. A complete list of publications and public library data can be downloaded from the Web at <http://nces.ed.gov/pubsearch/>.

The calculated total for "Population of Library Service Area" exceeds the state's total population because more than one public library may count the same population. For example, a district library may share part of another library's service area by virtue of having a participating municipality, such as a school, with geographic boundaries that extend into the adjoining library's service area. Statewide totals, averages, and per capita were calculated based on the actual total state unduplicated population. The millage reports allows exhibition of data for two millages, however there are 7 libraries that declare 3 millages; these are noted with asterisks. To receive information on the third millage for these libraries, please contact Molly Dwyer, at (517) 373-3828.

The publication includes a Public Library Index that identifies basic information for each library, including the class size under which the library data is reported. Data from the Public Library Annual Report Section A, Current Information, are presented under the name of the library at the reporting date. Reports included in this section are: Salary and Benefit Information, Millage, Non-Resident Fees and MichiCard Membership and all Technology. Data from the Public Library Annual Report Section B, Reporting Year Information, are presented under the name of the library at the library's reporting year-end. The reporting year for the public libraries is the most recent fiscal year completed by each library prior to October 1, 2000. Reports included in this section are: Outlets, Hours and Staff, Operating Income and Expenditures, Capital Income and Expenditures, Library Collections, Library Services and Square Footage.

Special Considerations:

All legally established public libraries in the state of Michigan were invited to respond. Data were collected as part of the State Aid Application. Library systems were asked to report data that includes their main and branch libraries. A copy of the Public Library Annual Report form and instructions are included in this publication. A total of 386 public libraries provided data. Though Oakland County Research Library and Washtenaw County Library filed timely reports, their data are not included due to their unique structures. It is important to note that their data are also not included in the Class and Statewide Summary reports. Four libraries reported no central libraries and four libraries reported less than twelve months of data. These libraries are included in the 384 public libraries in the statewide summary reports. See the Public Library Index notes for detail information.

To make the publication more readable, a blank indicates that the library reported "0", "none", or did not report. Data was accepted as reported. In some cases, libraries were contacted to clarify responses. There were no imputations for libraries that did not respond or for items left blank. Thus, unless the response rate to a data element was 100 percent, totals in the tables are probably underestimated.

The averages reported are figured by using only the number of libraries that reported having each particular data element.

This publication is also available in pdf format on the Library of Michigan web site at <http://www.libraryofmichigan.org/>.

Interpretation and Usage

Despite changing times, it continues to be true that a community is strengthened with the presence of a good library. In the quest to fulfill the entertainment and information needs of the public, Michigan's libraries continually increase their value to the community. It is our hope that by gathering accurate and uniform information, we are providing opportunities to measure and evaluate library services.

When analyzing the data, keep in mind:

- *Comparisons are not always apples to apples.*
Libraries may have a different fiscal year and/or special circumstances, which may have atypically affected their data (e.g. a temporary closing due to reconstruction, severe weather, etc.).
- *Caution should be used when comparing any one library with national, state or class averages.*
One data element alone does not tell a complete story. Rather, data elements should be interpreted in context with each other and with the individual library's overall service program and budget. Additionally, even libraries of similar size have varying funding patterns and different service goals. (e.g., A reference and resource library will show a different pattern of statistics than a popular materials library.)
- *Online databases and Internet usage have dramatically changed library use patterns.*
Though we ask a limited number of questions about technology services, we strongly encourage individual libraries to track use patterns. Providing users with new services may significantly alter the use patterns of the more traditional services.
- *There is no need to limit library comparisons to those in the same class size.*
Population alone does not determine the best means for analysis. For example, many libraries find Operating Income or Operating Expenditures to be a more useful variable, while others are more interested in simply comparing a library with other libraries in the same county.
- *Data alone do not define certain components that are immeasurable.*
Statistical data only suggest patterns and indicate areas that may need improvement or special attention by the local decision-makers. The people that maintain and support libraries clearly are what make each library unique.

The Library of Michigan provides this data to information specialists, librarians, trustees, government officials and the general public as they evaluate library activities and plan improvements in library services. Participation in filing the Annual Report demonstrates cooperation among Michigan public libraries and cooperatives and devises national leadership and recognition. Library statistics are commonly used to:

- Demonstrate effective use of public funds and provide a clear vision of what libraries do for the community.
- Allocate resources for various library operations, including collection development, staffing and programming.
- Justify statements of need for new services, building structures or technology.
- Support local long-range planning efforts.
- Provide a historical record.

Thank you to all respondents for their accurate reporting of these statistics. We welcome your comments and questions about this report as we strive to make this as complete and useful as possible. Additionally, the Library of Michigan can provide more detailed information to libraries upon request. Interested individuals can obtain specialized reports on specific information for this and previous years. Complete Parts IV - VIII with information from the most recent fiscal year completed prior to October 1, 2000.

PART IV: BUDGET AND ACTUAL EXPENDITURES

Financial information must be precise for income and expenditures during the reporting year and should be reported in whole dollars.

Steps to complete this form:

- 1) Report budget and actual expenditures for October 1, 1999 - September 30, 2000.
Note: The FY 1999/2000 budget should be taken from your last year's Budget Form.
- 2) Calculate variance between FY 1999/2000 budget and actual expenditures.
- 3) Explain any variances - attach additional pages, if necessary.
- 4) Report projected budget for October 1, 2000 - September 30, 2001.

Regional and Subregional Libraries for the Blind and Physically Handicapped

PART V: OPEN HOURS AND SQUARE FOOTAGE

A. Total annual public service hours for the reporting year:

Using scheduled hours as a guide, subtract known closed days or weeks, both scheduled and unscheduled, to derive a realistic annual total hours open figure for your library during the reporting year.

B. Total square footage:

Report the total square footage of the subregional facility used for library purposes.

PART VI: LIBRARY READERSHIP

Michigan citizens who are registered to receive subregional library service.

PART VII: LIBRARY COLLECTIONS

For each category, report the number of physical units (items) owned at the end of the reporting year. Complete every box, leave no box blank. Enter "0" (zero) if none. If exact amount is unknown, enter an estimate. Items which are packaged together as a unit, e.g. two compact discs, two films, or two video cassettes, and which are generally checked out as a unit, should be counted as one physical unit.

Descriptive Video		
Large Print Materials		
Materials in Electronic Format		
Recorded Cassettes		
Recorded Discs		
Total: Total units at year end in subregional library collections		

PART VIII: LIBRARY SERVICES

Complete every box, leave no box blank. Enter "0" (zero) if none. If exact amount is unknown, enter an estimate. If an actual count of the data element is unavailable, determine an annual estimate by an actual count during a typical week in October and multiplying the count by 52. A "typical week" is a time that is neither unusually busy or unusually slow. Avoid holiday times, vacation periods for key staff, or days when unusual events are taking place in the community or the library. Choose a week in which the library is open its regular hours. Include seven consecutive calendar days, from Sunday through Saturday (or whenever the library is usually open). This technique can be used to estimate library visits and circulation transactions.

A. Library Visits:

The total number of persons entering the library for whatever purpose during the year.

B. Program Attendance:

Total number of programs offered during FY 1999/2000.

Estimated total attendance.

C. Total Circulation:

The total annual circulation of all subregional library materials of all types, including renewals. Count all materials in all formats that are charged out for use outside the library. Interlibrary loan transactions included are only items borrowed that are then circulated to users. Do not include items checked out to another library.

The person signing the form must be an authorized official of the regional/subregional library who can be held accountable for the information on the form. The regional/subregional library's fiscal agent as well as the main library director must also sign the form. In the event of a state aid audit, the authorized official will be contacted. Reports that are not signed are returned for signature. Signature must be original signature - signature stamps will not be accepted.

GUIDELINES:

Section 632. The appropriation in section 108 to the Library of Michigan, for subregional state aid, shall not be expended unless the local unit of government agrees to not reduce local support below the level of local support expended for subregional library services in the local unit of government's immediately preceding fiscal year. A reduction in local expenditures that equally affects all agencies within a local unit of government shall not be interpreted as a replacement of local financial or in-kind support with state aid funds.

Section 633. The appropriation in section 108 to the Library of Michigan, for a subregional library, shall not be released until a budget for that subregional library has been approved by the Library of Michigan for expenditures for library services directly serving the blind and persons with disabilities.

Library Cooperatives Annual Report Form

FY 2000/2001 LIBRARY COOPERATIVE ANNUAL REPORT/STATE AID APPLICATION for Reporting Year October 1, 1999 through September 30, 2000

This report, or letter of intent to file, must be postmarked on or before February 1, 2001 to be eligible to receive state aid.
If a letter of intent to file is submitted, the original Annual Report must be postmarked on or before March 31, 2001.
Refer questions regarding this form to Ed Willoughby at ewilloug@libinfo.michlib.net or (517) 373-7147.

SECTION A: CURRENT INFORMATION

Complete Parts I-VI with information that is current as of the filing date. _____
(Date due report is filed)

PART I: DIRECTORY INFORMATION

Cooperative Name: If name changed since last annual report was filed, attach documentation authorizing legal name change, such as Board minutes or establishment documentation.	
Street Address (number, street, etc.): The complete street address of the cooperative. Do not report a post office box or general delivery.	
City: The city or town in which the cooperative is located.	Zip+4: Include the four-digit postal zip code extension for the street address of the cooperative.
Cooperative Service Population: The rate of the total service population of each library that is a member of the cooperative as of October 1, 2000.	Web Address: If the cooperative has a home page accessible over the Internet, please include the web address (e.g. http://www.library.lib.mi.us/library.html).
Director's Name: The name of the current official cooperative director. If the director position is vacant at the time of filing this report, provide the name and title for the acting or interim director and label as such.	Cooperative or Director's Email Address: The email address to be used to contact the cooperative director.
Phone Number: The telephone number of the cooperative, including area code.	Fax Number: The telephone number for the fax machine used for administrative purposes, including area code.

PART II: LIBRARY COOPERATIVE BOARD MEMBERS

List the names of current library cooperative board members who are serving at the time this report is filed, beginning with officers. Add an additional page, if needed, to list the entire board.

Positions: Beginning with the officers, list the title of each position of the board members.

Names: List the name for each current cooperative board member. Enter "vacant" for vacancies and contact the Library of Michigan when the positions are filled.

Address: Provide a current mailing address for each board member. Include street number and street name, city and zip code. Provide two-letter state code only if the person resides outside of Michigan.

Daytime Phone: Provide the phone number at which each individual can be reached during the day.

Library Represented: Provide the current legal name of the library each board member represents.

Cooperative Name: _____

PART III: COOPERATIVE STAFF

Include all employees paid by all sources to perform cooperative functions. Include all positions, whether those positions are filled or vacant. All employees should be included, whether or not the Library of Michigan certified them. To ensure comparable data, 40 hours per week has been set as the measure of full-time employment. Derive the Full Time Equivalent (FTE) staff figure by adding the total number of hours worked by all employees in each category. Then divide the total staff hours by 40 and round to two decimal places.

ALA-MLS Librarians: Librarians with Master's degrees from programs of library and information studies accredited by the American Library Association.

Other Librarians: Persons with the title of librarian who do paid work that usually requires professional training and skill in the theoretical or scientific aspects of library work, or both, as distinct from its mechanical or clerical aspect.

Other Staff: Include all other paid cooperative employees, including plant operations, security, and maintenance staff.

Totals: The sum of "ALA-MLS Librarians", "Other Librarians" and "Other Staff".

Computers for Staff or Public Use FY 1990 - 2000

Becoming a high-technology society has had a significant impact on library resources and services. Computers are now considered as essential for information reference as they are for communication and entertainment, and Michigan libraries have responded to the demand. Aside from providing an increasing number of computers for everything from surfing the Internet to playing CD ROMs, the number of collection items in electronic format and access to online databases have also increased.

Statewide Summaries

Operating Income By Source FY 2000

Looking at the source of operating income for public libraries provides valuable information for librarians, boards, and communities. Percentages are calculated by dividing the individual sources by the total operating income.

Statewide Summaries

Operating Expenditures FY 2000

Examining operating expenditures by source allows a comprehensive look at the allocation of library funds. Staff expenditures are the largest expense for most public libraries and averages show an increase with class size. We've seen an increase in the electronic access expenditures over the years, and this will undoubtedly be a continuing trend. Percentages are calculated by dividing each operating expenditure (staff, collection, electronic access, other operating) by the total operating expenditures.

Physical Collection Holdings Statewide FY 2000

In FY 2000, the total collection expenditures of Michigan public libraries comprised 13% of the total operating expenditures. Though books and serial volumes comprised 92.5% of physical collection holdings, expenditures for books and serial volumes were only 70.1% of total collection expenditures during the fiscal year. Similarly, audio and video collections comprised 7.1% of physical holdings while expenditures for those items were 13.4% of the total collection expenditures; subscriptions comprised 0.3% of the physical holdings and 10.6% of the collection expenditures; and electronic format comprised 0.2% of the physical holdings and 5.8% of the collection expenditures. The data suggest that libraries are increasingly supplementing traditional print collections with alternative formats.

BEST COPY AVAILABLE

People are coming to Michigan libraries for numerous reasons, but it is becoming increasingly apparent that a major attraction is the access to electronic resources that our libraries provide. From the Internet to CD ROMs, e-books, and electronic databases, Michigan libraries provide a dynamic variety of access. Last year, an average of one in four visitors took advantage of the public library's electronic resources. AccessMichigan is a service of the Library of Michigan developed with the participation of Michigan libraries and designed to offer every library and resident of the state equitable and easy to use access to a core set of information resources. The AccessMichigan databases are purchased through Library Services and Technology Act (LSTA) funds and through state appropriations.

Enter the month and year when the latest millage was approved by the voters in your service area.		Enter the latest rate levied for library services. This is the rate that actually was used in determining property taxes.	Enter the month and year when the millage will expire. If the millage was voted "in perpetuity," leave date blank and indicate this by putting an "X" in the Millage Voted in Perpetuity space.		

Public Library Annual Report Form

PART VII: TRUSTEES REPORT

All Public Libraries must complete this page. Report the most current information. List the names of Trustees who are serving at the time this report is filed. Be sure to complete the "Term Expires" column. Do not list Trustees whose terms have expired at the time of filing this report. Library Staff Members may not be voting members of the Board of Trustees. School District Libraries organized under Public Act 451, 1976, must report both their legal School Board and their Library Advisory Board.

If a Board position is vacant at the time of filing, make an entry for the vacant position to verify that your Board will have the appropriate number of Trustees. When the position is filled, contact Donna Holdridge to report the new Board member and term at dholdrid@libofmich.lib.mi.us or (517) 373-1587.

Main Library City: Indicate the city in which the main library facility is located.	Main Library County: Indicate the county in which the main library facility is located.
Main Library Name: Indicate the legal name of the main library.	
Current Organizational Status: Indicate the Michigan library establishment status under which the library is currently organized. (see list on next page)	
Total Number of Voting Members Required by Statute or Legal Establishment Document:	
If recently reorganized, provide reestablishment date and statute:	

School district libraries organized under Public Act 451, 1976 must report two boards. List the School Board on this page. List the Advisory Board on a separate sheet.

Library Name: _____

10/2000 - Section A Current Information - Page 5

Trustee Name: List the legal name for each current Board of Trustees member, beginning with officers. Enter "vacant" for vacancies and contact the Library of Michigan when the positions are filled.

Voting Member: Indicate if trustee is a voting member of your Board.

Mailing Address: Provide a current mailing address for each Board member. Include street number and street name, city and the standard five-digit postal zip code with the four-digit postal zip code extension. Provide two-letter state code only if the person resides outside of Michigan.

Email Address: The email address to be used to contact the trustee.

Phone Number: Provide the phone number at which each individual can be reached during the day.

Term Expires: List the month and year the term for each Board member will expire. If an individual serves on the Board as a function of his municipal office, write "ex officio" in this space.

Public Library Annual Report Form

FY 2000/2001 PUBLIC LIBRARY ANNUAL REPORT/STATE AID APPLICATION

This report, or letter of intent to file, must be postmarked on or before February 1, 2001 to be eligible to receive state aid. If a letter of intent to file is submitted, the original Annual Report must be postmarked on or before March 31, 2001. Re/cr questions regarding this form to Molly Dwyer at (517) 373-3828 or personalreports@libofmich.lib.mi.us

SECTION B: REPORTING YEAR INFORMATION

Information should include the Main Library and all Branches.

For the report period: / / to / /

Report Year: Most recent fiscal year completed prior to October 1, 2000, even if that means reporting less than 12 months of data. The reason for reporting less than 12 months of data could be due to a change in legal status, change in fiscal year, etc. If your reporting year has changed, provide documentation authorizing the change, such as board minutes.

PART I: ADMINISTRATIVE ENTITY INFORMATION

Legal Name of Main Library: The legal name of main library at reporting year end.	
Street Address (number, street, etc.): The complete street address of the actual physical location of the main library. Do not report a post office box or general delivery.	
City: The city or town in which the main library is located.	Zip+4: Include the five-digit postal zip code and the four-digit postal zip code extension for the street address of the main library.
Mailing Address (PO Box): The complete mailing address of the main library. Do not complete if this address is the same as the street address.	
City: The city or town for the mailing address.	Zip+4: Include the five-digit postal zip code and the four-digit postal zip code extension for the mailing address of the main library.
County: The county in which the main library is located.	Township: The township in which the main library is located.
Phone Number: Area code and telephone number of the main library.	Name of Library Cooperative: Provide the name of the library cooperative if the library is a member during the reporting year. If the library is not a member, indicate "none".
Library Organization Type: Check the "type name" reflecting the library's organizational structure according to establishment statutes at the end of your reporting year. ☐ City ☐ County ☐ District ☐ School District ☐ Township ☐ Village	

Administrative Structure: Mark the box that best identifies your library's administrative structure according to the following federal definitions:

- ☐ **Administrative Entity with Multiple Direct Service Outlets where Administrative Offices are Separate:** An administrative entity that serves the public directly with two or more service outlets, including some combination of central library(ies), branch(es), bookmobile(s), and/or books-by-mail only. The administrative offices are separate from the direct service outlets and do not provide direct library services.
- ☐ **Administrative Entity with Multiple Direct Service Outlets where Administrative Offices are NOT Separate:** An administrative entity that serves the public directly with two or more service outlets, including some combination of central library(ies), branch(es), bookmobile(s), and/or books-by-mail only.
- ☐ **Administrative Entity with a Single Direct Service Outlet:** An administrative entity that serves the public directly with one central library, books-by-mail only, or one bookmobile.

Public Library Definition: A public library is an entity that is established under state enabling laws or regulations to serve a community, district, or region, and that meets one or more of the listed criteria. Check all that apply based on the federal definition of a public library.

- ☐ Library has an organized collection of printed or other library materials.
- ☐ Library has paid staff.
- ☐ Library has an established schedule in which services of the staff are available to the public.
- ☐ Library has facilities necessary to support collection, staff, and schedule.
- ☐ Library is supported in whole or in part with public funds.

PART II: OPEN HOURS AND SQUARE FOOTAGE SUMMARY

Complete every box, leave no box blank. Enter "0" (zero) if none. For State Aid, the information provided here is used to verify that the library (or the main library and its branches) met the minimum scheduled hours open per week requirement for its class size during the reporting year.

A. Number operated during reporting year: If none of the marks type were operated during the reporting year, enter "0" (zero).

B. State Aid unduplicated scheduled average hours per week: Unduplicated branch hours are hours when one or more branches are open when the main library is not. Do not count duplicate branch hours. For example:

Main library: Open 9 AM - 4 PM, Mon - Fri = 35 unduplicated hours/week
 North Branch: Open Noon - 8 PM, Tues and Thurs = 8 unduplicated hours/week
 Open 10 AM - 4 PM Fri = no unduplicated hours
 South Branch: Open 10 AM - 2 PM Sat = 4 unduplicated hours
 Open 10 AM - 6 PM Tues - Fri = 2 hours Fri + 2 hours Wed unduplicated

Total unduplicated branch hours for the system is 16
 Total unduplicated hours for State Aid is 51 per week

Note: You must attach a schedule showing main library and branch library hours for the reporting year if using unduplicated hours to qualify for state aid. If a public library has more than one branch, and if the hours for the main library building and each established branch library are different, the unduplicated hours may be added together to satisfy the minimum open hours requirement to qualify for state aid. The minimum open hours requirement must be maintained for not less than 9 months of the 12 month operating period. If a reduced hours schedule is implemented, the library must be open not less than 10 hours per week.

C. Total annual public service hours for the reporting year: Using scheduled hours as a guide, subtract known closed days or weeks, both scheduled and unscheduled, to derive a realistic annual total hours open figure for your library during the reporting year.

D. Total square footage: Report the total square footage of the facility used for library purposes.

Public Library Annual Report Form

Outlet Type	Number operated during reporting year	State Aid designated scheduled average hours per week	Total annual public service hours for the reporting year	Total square footage
	A	B	C	D
Central Library(ies): One type of single outlet library or the library which is the operational center of a multiple-outlet library and is synonymous with a main library. Usually all processing is centralized here and the principal collections are housed here. Each administrative entity may report either as central library or one central library. No administrative entity may report more than one central library.				
Branch(es): Auxiliary unit of an administrative entity which has at least all of the following: 1) separate quarters; 2) an organized collection of library materials; 3) paid staff; and 4) regularly scheduled hours for being open to the public.				
Bookmobile(s): Traveling branch library consisting of at least all of the following: 1) a truck or van that carries an organized collection of library materials; 2) paid staff; and 3) regularly scheduled hours (bookmobile accepts) for being open to the public. Report the number of vehicles in use, not the number of stops the vehicle makes.		Not applicable for state aid		Not applicable for state aid

PART III: PAID STAFF

Complete every box. Leave no box blank. Enter "0" (zero) if none. Report figures as of the last day of the reporting year. Include all employees paid with library funds to do library work or to maintain the library building for the main library, all branches, bookmobiles and other service outlets. All employees whether or not they are certified by the Library of Michigan are included. This chart should not include volunteers, since these figures may be used to determine average staff expenditures. To ensure comparable data, 40 hours per week has been set as the measure of full-time employment. Derive the Full Time Equivalent (FTE) staff figure by adding the total number of hours worked by all employees in each category. Then divide the total staff hours by 40 and round to two decimal places.

Employee Category	Number of paid employees in this category	Total hours per week worked by these employees	Full Time Equivalent Total hours/40
ALA-MLS Librarians: Librarians with master's degrees from programs of library and information studies accredited by the American Library Association.			
Total Librarians: Persons with the title of librarian who do paid work that usually requires professional training and skill in the theoretical or scientific aspects of library work, or both, as distinct from its mechanical or clerical aspect. This data element also includes those individuals that possess an ALA-MLS.			
All Other Paid Staff: Include all other library employees paid from the reporting year budget, including plant operations, security, and maintenance staff.			
Total Paid Employees: The sum of "Total Librarians" and "All Other Paid Staff."			

Library Name: _____ 10/2000 - Section B Reporting Year Information - Page 9

PART IV: OPERATING INCOME

Report income used for operating expenditures as defined below. DO NOT include capital income, contributions to endowments, income passed through to another agency, or funds unspent in the previous fiscal year. This section provides detail of local, state and federal income for your library's reporting year. Include federal, state or other grants, except for grants for capital expenditures. It is important to keep accurate financial records for each reporting year and to be able to track local, state and federal funds separately. Although there must be a realistic relationship between total operating income and total operating expenditures, the figures will probably not balance exactly. It is important to report accurately, since the library must be able to verify any financial information with audited figures. For purposes of this report, income is defined as actual cash or a documented monetary transfer to the library fund. Do not include in-kind services, pledges and grants not received.

Total Local Operating Income is used to meet the 3/10 mill match requirement for State Aid. If your library's total service area does not meet this state aid standard, revenues from the total legal service area and individual contracted municipalities will be reviewed. For this reason, the Operating Income report form provides a line for each municipality served by your library. When completing the form:

If your legal service area is comprised of more than one municipality (for example, a whole county, a school district of two or more municipalities), the legal area income can be reported on the first line.

If you cannot break down miscellaneous "other public local income" by municipality, report it all on the top line of the Legal Service Area section.

Only local income needs to be broken down by municipality.

A. Legal Service Area: Name of the municipality or other designated jurisdiction served under statute during the reporting year. Example: school district, name of county (if whole county).

Local Penal Fine Revenues (A): Report Penal Fine revenues received during the reporting year. If you do not know the amount received for each individual service area, calculate it by determining the total population your library serves in the county and dividing the penal fines received from that county by the population served to determine the per capita rate. Multiply the per capita rate by the population of each service area to determine penal fines received from each service area. If your library has service areas in two or more counties, you must determine each rate separately.

Income from Voted Millage (B): Enter only revenues received during the reporting year from a dedicated library millage which was approved by a vote of the people. If the millage is for a multi-municipality legal service area (whole county or district structure), complete millage information on the top line only.

Appropriated Tax Income (C): This revenue is received by the library directly from the municipal, county, district or school governing body. This revenue is not the result of a dedicated voted library millage.

Other Local Government Income (D): Report miscellaneous income received from local government sources. (Do not include user fees.) If the library received revenue from a Single Business Tax levied on local business, enter the amount in this column on the top line of the legal area chart.

Total Local Government Income (E1): Add columns A, B, C, and D. This includes all tax and non-tax receipts designated by the community, district, or region and available for expenditures by the public library. Do not include the value of any contributed or in-kind services or the value of any gifts and donations, fines, or fees paid by individuals.

Other Local Operating Income (F1): Report miscellaneous income from local non-government sources. This category includes user fees and fees, collections from coin operated equipment, income from used book sales, fund-raisers, library Friends events, etc. Non-capital cash contributions are included in this category. Includes, for example, monetary gifts and donations received in the current year, interest, library fines, and fees for library services. Do not include the value of any contributed or in-kind services or the value of any nonmonetary gifts and donations. If it is impossible for you to break down the miscellaneous income by individual municipality, report the Other Local Operating Income on the top line of the legal service area chart.

B. Contracted Municipality: Name of municipality or other designated jurisdiction with which the library has a library service contract approved by the Library of Michigan.

Local Penal Fine Revenues (A): Report Penal Fine revenues received during the reporting year. If you do not know the amount received for each reported contracted municipality area, calculate it by determining the local total population served by your library in the county as a result of service contracts and dividing the penal fines received from that county by the population served to determine the per capita rate. Multiply the per capita rate by the population of each contracted municipality to determine penal fines received for each municipality. Penal fines distribution rates are different for each

PART VI: OPERATING EXPENDITURES (Use whole numbers only)

Operating expenditures are the current and recurrent costs necessary to support the provision of library services. List only expenditures paid from library operating budgets. Complete every box, leave no box blank. Enter "0" (zero) if none.

A. Staff Expenditures:

Salaries and Wages: Include salaries and wages for all library staff (including plant operations, security, and maintenance staff) for the fiscal year. Include salaries and wages before deductions but exclude employee benefits.

Employee Benefits: The benefits outside of salaries and wages paid and accruing to employees (including plant operations, security, and maintenance staff), regardless of whether the benefits or equivalent cash options are available to all employees. Include amounts for direct, paid employee benefits including Social Security, retirement, medical insurance, life insurance, guaranteed disability income protection, unemployment compensation, workers' compensation, tuition, and housing benefits.

Total Staff Expenditures: The sum of "Salaries and Wages" and "Employee Benefits."

B. Collection Expenditures: Include all expenditures for materials purchased or leased for use by the public.

Books and Print Materials: Include expenses for any print or microform materials that are part of the library collection.

AV and Non-Print Materials: Include expenses for any non-print collection materials, including film, video, sound recordings, etc.

Subscriptions (nonspecific format): Include subscription expenditures for reference serials, journals and newspapers in print or microform formats. This does not include subscriptions for materials in electronic format.

Library Materials and Subscriptions in Electronic Format: Report operating expenditures for materials considered part of the collection, whether purchased or leased, such as CD-ROMs, magnetic tapes, and magnetic disks, that are designed to be processed by a computer or similar machine. Examples are U.S. Census data tapes, locally-mounted databases, serials, and reference tools. Include operating expenditures for equipment when the cost is inseparably bundled into the price of the information service product. Exclude operating expenditures for library system software and microcomputer software used only by the library staff.

Total Collection Expenditures: Sum of expenditures for "Books/Print Materials," "AV/Non-Print Materials," "Subscriptions (nonspecific format)," and "Library Materials/Subscriptions in Electronic Format."

C. Operating Expenditures for Electronic Access: Report all operating expenditures from the library budget associated with access to electronic materials and services. Include computer hardware and software used to support library operations, whether purchased or leased, mainframe or microcomputer. Include expenditures for maintenance. Include expenditures for equipment used to run information service products when that expenditure cannot be separated from the price of the product. Report expenditures for services provided by national, regional, and local bibliographic utilities, networks, consortia and commercial services. Report all fees and usage costs associated with such services as OCLC FirstSearch or electronic document delivery. Report only operating expenditures, including Internet access charges. DO NOT report items included as capital expenditures in Part VII.

D. Other Operating Expenditures: Include all expenditures other than those for staff, collection and electronic access. Include expenses such as binding, supplies, repair or replacement of existing furnishings and equipment, and costs incurred in the operation and maintenance of physical facilities. DO NOT report items included as capital expenditures in part VII.

E. Total Operating Expenditures: Sum of A, B, C, and D. It includes "Total Staff Expenditures," "Total Collection Expenditures," "Operating Expenditures for Electronic Access," and "Other Operating Expenditures."

Library Name _____ 10/2000 - Section B Reporting Year Information - Page 13

PART VII: CAPITAL OUTLAY (Use whole numbers only)

Include expenditures paid from your library capital budget for the acquisition of or additions to fixed assets such as building sites, new buildings and building additions, equipment, initial book stock, furnishings for new or expanded buildings, or vehicles, and other onetime, extraordinary projects. This excludes replacement and repair of existing furnishings and equipment, regular purchase of library materials, and investments for capital appreciation. Complete every box, leave no box blank. Enter "0" (zero) if none.

Capital Expenditures for Electronic Access: Report capital expenditures associated with access to electronic materials and services. Include computer hardware and software used to support library operations, whether purchased or leased, mainframe or microcomputer. DO NOT report items included as operating expenditures in Part VI.

Furnishings and Equipment Expenditures: Report major expenditures for all furniture and equipment other than for electronic access. Examples include shelving, patron tables and chairs, photocopies, etc. DO NOT report items included as operating expenditures in Part VI.

Building Expenditures: Report expenditures for the acquisition of or additions to building sites, new building additions and library facilities. DO NOT report items included as operating expenditures in Part VI.

Total Capital Expenditures: Sum of "Capital Expenditures for Electronic Access," "Furnishings and Equipment Expenditures," and "Building Expenditures."

PART VIII: LIBRARY COLLECTIONS

For each category, report the number of physical units (items) owned at the end of the reporting year. Complete every box, leave no box blank. Enter "0" (zero) if none. If exact amount is unknown, enter an estimate. Items which are packaged together as a unit, e.g. two compact discs, two films, or two video cassettes, and which are generally checked out as a unit, should be counted as one physical unit.

Book/Serial Volumes: Books are non-periodical printed publications bound in hard or soft covers, or in loose-leaf format. Serials are publications issued in successive parts, usually at regular intervals, and as a rule, intended to be continued indefinitely. Serials include periodicals (magazines), newspapers, annuals (reports, yearbooks, etc.), memoirs, proceedings, and transactions of societies. Include microform, audio, and serials in this category. Except for the current volume, count unbound serials as a volume when the library has at least half of the issues in a publisher's volume.

Audio: Materials on which sounds (only) are stored (recorded) and that can be reproduced (played back) mechanically or electronically, or both. Included are records, audio cassettes, audio cartridges, audio discs, audio reels, talking books, and other sound recordings.

Video: Materials on which pictures are recorded, with or without sound. Electronic playback reproduces pictures, with or without sound, using a television receiver or monitor.

Subscriptions (nonspecific format): Refer to the arrangements by which, in return for a sum paid in advance, periodicals, newspapers, or other serials are provided for a specified number of issues. These are print and microfilm subscriptions only; not electronic or digital subscriptions. Count subscriptions purchased from the library's budget and those donated to the library as gifts. Count titles, including duplicates, not individual issues.

Number of library materials and subscriptions in electronic format: Report the number of physical units such as CD-ROMs, magnetic tapes and magnetic disks, that are designed to be processed by a computer. Examples are U.S. Census data tapes, locally-mounted databases, reference tools, and serials on CD-ROM, tape or floppy discs. Exclude bibliographic records used to manage the collection, library system software, and microcomputer software used only by the library staff.

Total: Total units at year end in library collections.

Public Library Annual Report Form

PART IX: LIBRARY SERVICES

Complete every box, leave no box blank. Enter "0" (zero) if none. If exact amount is unknown, enter an estimate. If an actual count of the data element is unavailable, determine an annual estimate by an actual count during a typical week in October and multiplying the count by 52. A "typical week" is a time that is neither unusually busy or unusually slow. Avoid holiday times, vacation periods for key staff, or days when unusual events are taking place in the community or the library. Choose a week in which the library is open its regular hours. Include seven consecutive calendar days, from Sunday through Saturday (or whenever the library is usually open). This technique can be used to estimate library visits, circulation transactions, reference transactions, interlibrary loans and number of users of electronic resources.

A. Library Visits: The total number of persons entering the library for whatever purpose during the year.

B. Program Attendance:

Program	Number Offered During FY 1999/2000	Estimated Total Attendance
Children's Program: The count of the audience at all programs intended primarily for persons 14 years old or younger. Include all persons who attend, whether adults or children.		
Young Adult Program: The count of the audience at all programs intended primarily for persons 15 - 18 years old. Include all persons who attend, whether adults or children.		
Adult Program: The count of the audience at all programs intended primarily for persons 19 years old or older. Include all persons who attend, whether adults or children.		
General Program: The count of the audience at all programs not included in the above categories. Include all persons who attend, whether adults or children.		

C. Circulation Transactions:

Total Circulation: The total annual circulation of all library materials of all types, including renewals. Count all materials in all formats that are charged out for use outside the library. Interlibrary loan transactions included are only items borrowed that are then circulated to users. Do not include items checked out to another library.

Circulation of Children's Materials: The total annual circulation of all children's materials in all formats to all users, including renewals.

D. Reference Transactions: A reference transaction is an information contact which involves the knowledge, use, recommendations, interpretation, or instruction in the use of one or more information sources by a member of the library staff. It includes information and referral services. Information sources include printed and non-printed materials, machine-readable databases, catalogs and other holdings records, and through communication or referral, other libraries and institutions and people inside and outside the library. The request may come in person, by phone, by fax, by mail or by email from an adult, a young adult, or a child. Do not count directional transactions or questions of rules or policies.

E. Interlibrary Loans: Report materials exchanged between your library and other libraries. Transactions between branches of the same library organization should not be counted here.

Number of items loaned to other libraries: These are library materials, or copies of the materials, provided by one library to another upon request. The libraries involved in interlibrary loans are not under the same library administration. These data are reported as annual figures.

Number of items borrowed from other libraries: These are library materials, or copies of the materials, received by one library from another library upon request. The libraries involved in interlibrary loans are not under the same library administration. These data are reported as annual figures.

F. Did your library provide access to electronic services (e.g. bibliographic and full-text databases, multimedia products)? These are electronic services provided due to subscription, lease, license, consortial membership or agreement. Include full-text serial subscriptions and electronic databases received by the library or an organization associated with the library. If your library has Internet access, answer "yes" - AccessMichigan provides access to electronic services.

☐ Yes ☐ No

G. Did your library have access to the Internet? ☐ Yes ☐ No (Answer "no" if your library had access to email only)

If yes, Internet was used by (select one):

- ☐ Library staff only
☐ Patrons through a staff intermediary only
☐ Patrons either directly or through a staff intermediary

H. Internet Terminals:

_____ Number of computer terminals (PC, dumb terminal, etc.) used by staff only in the library that are used to connect to the Internet (text only, graphical, etc.).

_____ Number of computer terminals (PC, dumb terminal, etc.) used by the general public in the library that are used to connect to the Internet (text only, graphical, etc.).

I. Number of users of electronic resources in a typical week: Count the number of users using electronic resources in the library in a typical week. Electronic resources include, but are not limited to Internet (WWW, email, telnet, other), online indexes, CD-ROM reference sources, software, and the online catalog. Do not include staff use of these resources.

The number of users may be counted manually, using registration logs. Count each user that uses electronic resources, regardless of the amount of time spent on the computer. A user, who uses the library's electronic resources three times a week, would count as three customers. Software such as "Historian" can also be used to track the number of users at each public terminal.

This is a new data element. If you did not collect this data, please provide an estimate.

PART X: CERTIFICATION OF PUBLIC LIBRARY PERSONNEL

This section verifies that appropriate numbers and levels of staff worked at the library during the reporting year to meet the minimum standards for state aid. This page may be duplicated, as necessary. Only staff who are **CERTIFIED** by the Library of Michigan and worked during the **REPORTING YEAR** need to be listed on this page. If a new **CERTIFIED** staff member was hired during the reporting year please provide a hire date. If a certified staff member (including the director) left during the reporting year please provide a departure date. For example, if the directorship changed during the reporting year, list the previous director with his or her departure date and the current director immediately below with his or her date of hire.

Public Library Index

A library is listed twice in the Public Library Index if the library experienced a name change between its reporting year-end and the reporting date of the Public Library Annual report. The Public Library Annual Report Section A, Current Information, is presented under the name of the library at the reporting date. Reports included in this section are Salary and Benefit Information; Millage; Non-Resident Fees and MichiCard Membership; and all Technology. The Public Library Annual Report Section B, Reporting Year Information, is presented under the name of the library at the library's reporting year-end.
